

## CHAPTER 30

"It's Sam!" Middi said.

"Sam?? What is he doing here? He shouldn't be here yet, shit, Eva, I'm still completely naked, and with the glans in the air, you know how impressionable he is, he shouldn't see me!

"It's true... wait... I can't leave him there"

Eva opened the door a little with her tail, sticking out only her head.

"Sam!! what... What are you doing here? Is everything alright?"

Sam looked like he hadn't slept in two days. He was dressed in clothes that did not fit him, barely covering himself. His shoes changed feet and one of his breasts was exposed. A very unkempt look

"I... I... I don't know what I'm doing here, but... I need... I needed... to talk to you"

Eva hesitated for a moment, Rob was right, the scene was quite explicit and they would have to explain too much to Sam. But he came up with a possible compromise solution using the advantages of his large and multiple body.

"Hey... Sam, of course... come in... but... come into the office, next door"

Eva opened the door and led Sam into the next room. Her long tail allowed him to access her and there was still plenty of length. Eva was even surprised at how far she could go without straining her own body.

"Eve! What's up?? what are you going to do??" Rob asked nervously as he tried to move towards his clothes. But Eva's body was in the middle and he couldn't access it.

"Don't worry, Sam looks horrible, he wants to talk to me, I'll take him to another room with my tail. I'll try not to get in here. You just try to dress"

"Yes, but you don't let me! step aside!"

But it was difficult for Eva to concentrate on the two simultaneous situations.

"Eva, wouldn't we be more comfortable... you know, in the living room?" asked Sam

"NO!" Eva said bluntly "I mean... no... better not, it's just... I'm... getting dressed. You know, Maya got me some clothes and I'm... trying them on. I don't think it's... well... you know"

"oh, yes... of course... sorry..." Sam seemed a little embarrassed, but thought about it a little more and said "But... your tail is bare"

"Yeah... I've... well, I hadn't gotten to this part yet... but I had to open the door with something hehehe" Penny scratched her head not knowing where to go. They went into the office, and Sam, quite uncomfortable, sat as best as he could on a chair with his hindquarters, trying not to crush her udder, Eva said:

"Well, Sam... is everything okay? You look horrible."

Sam looked at Eva, shocked and worried. He still wasn't used to talking to a head that grew from a giant penis.

"I... well... I don't really know why I came here. I... I've... I haven't slept for 3 days. I need you to help me. I know my new body is asking me for something... but... I don't know if I'm capable."

Eva, who was not 100% focused, didn't know what Sam was meaning.

"But what's wrong with you? You feel bad? What have the doctors told you? have you resorted to them?"

Meanwhile, Rob tried to crawl between Eva's legs, who even standing up, had to make room for her to go to the other side of the room. But it was inevitable that Rob's tail would rub against Eva's two lower penises.

"Rob! careful! you're throwing me off!" Virgin said quietly.

"No!...it's not something the doctors can...fix. My God, Eva, I don't know how to tell you this, but I can't comment on it... I'm... I'm so horny!" Sam said.

Eva's eyes widened. Even the rest of her body froze.

"Oh... wow... I..." Eva was a bit stunned, but then she reacted as only she knew how.

"Sam...so that's it!" Penny gave him a warm and tender smile "But that's normal! I mean, is that why you're sleepless? your body... for God's sake, look at you, you have a lot of sexual organs. You need to unwind! It is a physiological necessity!"

"But... that's wrong! I mean... I can't let myself be overcome by temptation!"

"What nonsense is that? It's your body... you can do what you want with it. Have you never masturbated?"

"Yes, of course... Eva! is not the same! besides... now... I don't even know how... I mean... I'm not a boy anymore! I have... a huge identity crisis! Besides, my parents... are on top of me, ALL day! I don't have a single moment of privacy... in fact, I have run away from home taking advantage of the fact that my parents have gone shopping"

Sure enough Sam was on the verge of a nervous breakdown. Eva was sure that this was not the time to create an awkward situation with Rob naked mixed with her body.

"Okay, Sam, calm down. What you are experiencing is quite normal. You need to... I'm sorry to be so abrupt but you need to vent. You must have accumulated tons of libido. You need to release it as soon as possible..."

Sam interrupted, still very nervous and even almost violent.

"But how am I going to do that? This is not my body!"

"Okay okay... don't be nervous. Let's do one thing: I'll help you, okay? but first you have to calm down a bit"

"But... are you going to help me? Are you... Are you sure? I mean... won't it be violent for you too?"

Eva gave him a condescending look, and raising all four arms she said:

"Look at me, right now I'm a giant penis, do you think I can be shocked to help you masturbate right now?" Eva had to hold back her laughter.

"O... okay... but... I..." Sam was very nervous, but he started to look a little more submissive.

"You'll have to get naked, Sam," Eva said.

"Oh...I...right..." Sam still looked hesitant "Are you...sure about this?"

"Sam, you literally mutated in my arms (when I had only two) I think I've seen you naked, at least as a girl..."

"Don't use the feminine with me! I'm still a boy!"

Sam began to undress. All of his breasts were exposed, but in order to remove the makeshift clothing from his back legs she had to bend over a lot and she barely reached it.

"It's just... my mother usually helps me with this part..."

"Okay, turn around, I'll help you"

Sam turned around, and Eva's tail lifted so that all four of her arms could reach his clothes. But in this way the end of her tail, which was beginning to show her glans, rested on Sam's back. He jumped in surprise, looking back with wide eyes as he saw the gigantic glans begin to peek out from between the folds of his skin. Eva pretended not to notice, and she continued removing clothes. Once they were all loose, Sam's two large penises were loose, but in an already semi-rigid state. They didn't even touch the ground. And within seconds they were fully erect, and pushing their way between the breasts that hung from his horizontal torso.

Sam started to moan, closing his eyes. Only the contact of the skin with the air began to excite him. Once he was completely naked, standing in the middle of the room, Eva withdrew to get a good look. It really was a very beautiful mutation, one of the most beautiful she's ever seen, as well as sexy. Sam had gained some feminine features, mixed with his own expression, very graceful. She was a pretty young lady, with a lot of soft, natural but firm breasts. She was really starting to get excited too just seeing him. Well, not only for that. Rob had been passing between Eva's legs and had already reached her clothes, but he was unable to put them back on.

Rubbing so many testicles and breasts through Eva's body, he had been unable to prevent another erection.

"Rob! hahaha what are you playing at??" Middi said, looking around trying to find Rob's torso.

"I'm down here! you're too big, you don't let me pass. Now, please don't let yourself fall or you will crush me!"

"But... are you erect again??"

"Look who came to speak... you have all the penises on this side pointing at the ceiling!"

"Don't talk so loud! I'm with Sam next door, I don't want him to hear you!"

Rob tried to wriggle out from between Eva's legs, but in his state he couldn't bend over, and his big testicles acted as a stopper.

Meanwhile, in the next room, Sam saw how her two penises were already peeking out between her front legs

"E.. Eva... what... what do we do now?"

Eva was watching Sam with a growing lust, she had to refocus to get back into the conversation.

"Yes, yes. Excuse me. Well... sure, you've never had a vagina, obviously, but you've been with one, right...?"

"W-what do you mean?"

"What do I mean??" Eva said laughing "have you been with other girls before, I mean, you have used them, although from the other side, right?"

"I..." Sam was trying to avoid eye contact, dodging the question.

"Sam..." Eva said very seriously "Are you a virgin??"

But Sam just stared at the ceiling without answering.

"You are a virgin!! How did you not tell me? Oh my God...!"

"But don't tell anyone! I'm... I'm very shy, you know me!"

"Okay, okay, calm down. So... I have to give you a crash course on how to use your own vagina, right?"

"But...is it going to...you know...is it going to hurt? People say that the first time, girls hurt"

"Oh, Sam... you're so sweet..." Eva said

Eva moved closer, placing her increasingly erect penis between her legs, to get a closer look at her front crotch. She gestured for Sam to sit on her hind legs, which he did using her large udders as cushions. Sam's vagina was right in front of Eva's face.

"Well, let's see. These are the outer lips..."

"Let's see, Eva, that's as far as it goes, just because I'm a virgin doesn't mean I've never seen porn..."

"Okay okay.. Sorry. Well, then let's get to the interesting stuff."

Eva parted his outer lips, showing the inside of Sam's vagina. He didn't have a single hair, and he had a very delicate and well-groomed appearance, not at all grotesque, like those vaginas with large inner lips, hanging down. Sam felt a small chill as he felt the cold air on his private part.

While she held his labia apart with two hands, the other two went to caress his inner lips, searching for the vaginal opening.

"You see, what you have to do first of all, is soak your fingers well with your own flow. If you're horny... you should segregate enough. Otherwise you will have all this very dry and it will hurt you."

Then she stroked his fingers between his lips, which were literally drenched in discharge.

"Okay, so... you stroke here... do you feel it? You will feel some chills, and an unstoppable need to raise your fingers until you get right... here" She said as she reached his clitoris, which was visibly swollen, with her fingers. Just then, Sam's legs went weak and he had a small seizure. His penises tensed, hitting the breasts that wobbled hitting Eva's glans. She was also making a great effort to contain herself. At least with his tail

The rest of Eva's body tried to pull Rob out from between her legs. She used two on the same side, to grab him by the penis, and thanks to her rigidity she was able to lift it and place it in front of him, without touching the ground. Rob was literally at Eva's mercy right now.

"Hey, I'm not a toy, you know??"

"Really...? Do you think so...?" Eve said

She then brought Rob's glans close to one of her vagina again, while Virgin parted her labia again.

"Wait wait!! Are you going to do it again? If it hasn't been 3 hours since..."

"Ugh... Sam is making me very horny next door, you know? Besides, you won't tell me that you don't feel like repeating... just look at yourself!"

"No... I don't know... and what if I don't have... you know..."

"There's only one way to find out"

And then, she slowly inserted Rob into her vagina again. Her three upper torsos began to play on their own while Virgin ran the operation down there.
